

MODERN TRADITIONALISM

Refers to any quilt with a traditional pattern, block, or design as its foundation, combined with one or more modern design elements. Modern traditional quilts often start with a conventional block or pattern — perhaps an Ohio Star or a Double Wedding Ring — and then are modified using modern design elements.

A Simple Formula

These components can be mixed and matched in endless ways, but the formula is straightforward.

Traditional Foundations Included	Modern Element Included	
Traditional block patterns	Negative Space	Improvisation
Traditional quilt patterns	Minimalism	Asymmetry
Traditional Quilt Layouts	Contrast.	Modern Color palette
	Alternate Grid	Scale

Quilt size
24" x 36" or larger
